DEBT TRANSPARENCY ACT AGENCY SUBMISSIONS

Vol. 9, No. 8

Period Ending July 31, 2026

SUSANA A. MENDOZA
ILLINOIS STATE COMPTROLLER

DEBT TRANSPARENCY ACT AGENCY SUBMISSIONS

Vol. 9, No. 8

Period Ending July 31, 2026

The following are the Debt Transparency Act submissions filed by state agencies for the period ending July 31, 2026. To find a specific agency, bring up the table of contents (in Edge: Alt and T buttons on your keyboard; in Chrome: hover over the page then left-click mouse on the bookmark image  in the upper-right of your screen, or left-click on the menu  in the upper-left of your screen), then select the agency.

Sixty-eight state agencies and universities responded for the reporting period ending July 31, 2026, in time for their data to be included in the publication of the report. Due to the timeliness required of this monthly report, agencies not filing timely are not included.

Four agencies reported zero liabilities:

- Illinois Civil Service Commission
- Illinois Math and Science Academy
- Insurance, Department of
- Secretary of State, Office of

Thirteen agencies have waivers granted by the IOC under 30 ILCS 105/9.08(a).

416	Totals	\$40,000	\$21,000	\$15,000	\$30,000	\$93,000	\$10,000

Estimated Late Payment Interest Penalties cannot be estimated with any accuracy since baseline date is not a populated field on the SAP report (FBL3N) used for Debt Transparency Act Reporting. The SAP report used for Debt Transparency Act Reporting does not identify liabilities as of the end of the reporting date if the liability is subsequently posted for payment before the report is ran since the FBL3N report excludes these documents.

Agency Liabilities for GRF have decreased, but remain high as we await vendor disclosures before invoices can be processed. Once received, Liabilities will decrease significantly. Late Payment Interest for GRF has increased as old invoices have been processed. Prompt Pay invoices will be processed in August 2026. Agency Liabilities for All Other Funds has increased with the receipt of large Technology Management invoices.

¹ If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

Variance Analysis

Explanation is not required as variance from prior month is less than the threshold limit of \$10 million.

Narrative

Agency liabilities consist of invoices and vouchers that do not have a payment warrant issued as of the end of the reporting period.

¹ If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

Variance Analysis

The GRF agency liabilities are up \$2.5M as compared to the end of Jun. The GRF variance is related to payments in lapse period and the beginning payments for FY27 services. The Federal funds agency liabilities are down \$3.2M from the end of June. The change is related to final payments that have been processed for FY26 lapse period. The Other funds agency liabilities are down \$6.5M from the end of June. There was no one program item that contributed to the variance but mainly attributed to lapse period final payments. The GRF estimated pending liability is up \$213.4M as compared to the end of June. This includes both FY25 and July of FY26. Expect this amount to grow to the amount paid from lapse period.. For Federal funds pending liability are down \$385.6M from end of June. This decrease is related to DHS methodology is spread across 12 months and includes estimate for FY25 and FY26. The large decrease is related the FY27 liabilities assumption for cost shifting to IDEC. The Other funds pending liability is down by \$257.2M compared to the end of June. This decrease is related how DHS methodology is spread across 12 months and the initial estimated expenditures for FY26. The large decrease is related the FY27 liabilities assumption for cost shifting to IDEC.

Narrative

- 1 Column B represents the FY26 and FY27 bills DHS has received but not yet submitted to IOC for payment. The majority of these bills will be submitted to IOC within 10 days, the only exceptions are early intervention bills (502 fund). Vouchers are held until cash is available in the fund.
- 2 Column C represents the prompt payment interest on vouchers paid by IOC that DHS has not submitted to the IOC for payment as of 06/30/2026.
- 3 For Column D, DHS is using an estimation. DHS spread the FY26 and FY27 estimated non-payroll related spending evenly over the fiscal year. DHS is comparing the estimated liability through 7/31/26 to the actual submitted to IOC through 7/31/26. Any difference is reduced by the amount of agency liabilities received but not yet submitted to IOC (column B). Through 7/31/26, DHS has not received bills for an estimated \$424.3M in FY26 and FY27 liabilities (\$313.2M in GRF). The estimation methodology DHS is using does allow for negative "pending liabilities". DHS does have Federal and State funds that paid out more than the estimated liabilities year to date. When this happens, a negative "pending liability" occurs. DHS has several funds that can be used interchangeably for services depending on cash flow.
- 5 For many DHS programs, DHS is the payor of last resort and providers are required to seek reimbursement from other sources before billing DHS. This causes delays in billings following the delivery of services. In many cases, the services provided in a month can not be billed until the month following the service delivery. This is why DHS has significant lapse period expenditures and in some cases the authority to pay for prior year bills from current year appropriations.

Variance Analysis

Narrative

SCO-961

Agency Name: Illinois Department of Healthcare and Family Services
Agency Number: 478
Reporting Period Ending: 7/31/2026

Agency Number

¹ If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

1. GRF and Related Funds Column B: Agency liabilities decrease compared to the previous report due to the timing of processing managed care capitation payments and a reported Medicare Part D clawback liability to the federal Centers for Medicare and Medicaid Services that does not repeat. Other Funds Column B: 329 Fund: Estimated agency liabilities decrease due to the release of a disproportionate share hospital payment to Cook County. 355 Fund: The value decreases due to the timing of receipt and processing of federal pass-through payments to local school districts. Column B's values may vary significantly from month to month depending on the timing of fee-for-service Medical Assistance claim receipt and where monthly managed care payments are in the payment process. 2. GRF and Related Funds Column D: Estimated pending liabilities decrease due to the timing of receipt and processing of Medical Assistance billings. Other Funds Column D: 355 Fund: The value increases compared to the previous report due to the timing of receipt and processing of federal pass-through payments to local school districts. Please note, given the size of the Medical Assistance Program and HFS Operations, as well as the fact costs do not necessarily come in consistently each month, the estimated pending liabilities may differ between monthly SCO-961 reports. 3. GRF and Related Funds Column E: The value remains relatively consistent compared to the previous report. Other Funds Column E: 355 Fund: The value decreases compared to the previous month due to the timing of receipt and processing of federal pass-through payments to local school districts. The values in Column E are calculated and reported as per October 21, 2019 statewide guidance issued by the Comptroller's Office. As stated above with regard to possible monthly Columns B and D variances, the values in Column E may also vary significantly from month to month depending on the timing of fee-for-service Medical Assistance claim receipt and where monthly managed care payments are in the payment process. Column F: 329 and 346 Funds: Previously reported insufficiently appropriated amounts have been removed as the General Assembly has enacted and the Governor has signed legislation addressing those funding levels.

1. Figures on this sheet represent all HFS operations and are not limited to Medical Assistance. 2. Column A: General Revenue and Related Funds reflect those funds referenced in 30 ILCS 105/25 (k) (2) (A). 3. Column B: HFS is an agency that processes large amounts of payments. While the values in this column may appear large, HFS is generally not holding bills-in-house (with limited exceptions including bills payable from non-Comptroller cash-managed funds awaiting delayed GRF budgeted infusions) and the figures essentially represent normal billing activity cycling through the Department. 4. Column C: Data in this column represents prompt payment interest (PPI) generated from payments issued by the Comptroller. 5. Column D Estimated Pending Liabilities or Incurred But Not Received (IBNR) Liabilities: While the values may appear to be large, they generally reflect normal business activity unless otherwise noted in the Variance Analysis. 6. Column E: Reflects estimated amounts in columns B-D expected to be sent to the Comptroller within 10 days of the filing of this report. 7. Columns G-J: Interest amounts reflected in these columns represent PPI that may be due on bills still at HFS. These bills may be considered at HFS for various reasons including, but not necessarily limited to, Court of Claims proceedings and holds placed due to HFS Inspector General investigations. While HFS has reported the full value of any PPI that may have accrued on these items as of June 30, 2026, not all reported PPI may end up being truly payable pending the outcome of the issues related to the payments. 8. Column K: Not applicable to HFS. 9. In addition to figures reported in the above table, approximately \$3,900 in PPI had accrued to GRF and Related Funds as of June 30, 2026 related to unpaid bills at the Comptroller's Office as of that date. Comptroller's staff requested those PPI figures be reported in these notes. 10. Please note: The estimated agency liabilities, late payment interest and accrued liabilities reported in Columns B-D of this SCO-961 may vary compared to those estimates determined once HFS completes its annual comprehensive review of total accrued liabilities conducted as part of its preparation of official FY26 financial reporting.

¹ If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

Variance Analysis

Explanations for variances over \$10 million for Column D are due to differences in 3 year average monthly expenditures from estimation method for determining amounts in column D.

Narrative

The methodology for estimation of Column D is based on a monthly average of the expenditures for FY24, FY25, and FY25, and lapse expenditures for FY23, 24, and 25.

¹ If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

The Tollway is not subject to Prompt Payment Interest or Timely Pay Interest Calculations on Vouchers still being held by the agency.

Variance Analysis

The Agency's liabilities increased by \$ 50.4 million from the June 2026 reporting period due to an increase in earned-to-date construction pay estimates. The Agency's estimated pending liabilities decreased by \$1.5 million from the June 2026 reporting period due to lower non-invoiced M&O accruals compared to actual invoiced accruals. The Agency's estimated payments made within 10 business days decrease by \$ 13.3 million from the June 2026 reporting period due to lower M&O-related payments.

Narrative

The methodology for estimation of Column D is based on accruals that have not yet been invoiced and earned to date construction pay estimates that have not yet been invoiced. The methodology for estimation of Column E is based on the Agency Payment Issued Report with dates of August 1, 2026 to August 3, 2026.

¹ If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

Variance Analysis

At July 31st 2026 the agency had \$43.61 outstanding bills stamped as received. As of 08/07/2026 the agency has \$40,114 bills stamped as received in August 2026. a total of approximately \$40,158 is currently anticipated for payment in the next 10 days.

Narrative

Agency reviews outstanding bills stamped received prior to month end reporting as liabilities in column C. Agency reports pending liabilities stamped received in current month in column D

Agency Name: Illinois State Board of Education
Agency Number: 586
Reporting Period Ending: Jul 2026

Agency Number

¹ If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

Col B (Fund 001, Fund 410, Fund 560, Fund 561 and Fund 802): Variance is due to the timing of submission of expenditure reports by school districts; (Fund 007, Fund 016 and Fund 144): Variance is due to timing of the receipt of invoices

410 Fund: Funding and Disbursements staff will run meal report for the previous two months to arrive at estimated meal counts remaining. An excel template has been created that will calculate meal costs based on reimbursement rates multiplied by the estimated meal counts remaining. Formulas in the template will provide estimated pending liabilities for National School Lunch, Child and Adult Care Food Program (both Centers and Homes), and Illinois Free Breakfast and Lunch. The Fresh Fruit and Vegetable Program and the NSLP Equipment Assistance Grant liability will be calculated by taking the total Grant Award less disbursements which equals the obligation. We will divide the obligation by the number of months left in the grant period to arrive at the estimated pending liabilities for both the Fresh Fruit and Vegetable Program and the NSLP Equipment Assistance Grant. Funding and Disbursements staff will process vouchers on the first Wednesday of the month. The vouchers for the 410 fund will be totaled and listed as the Liability estimated to be submitted to the Illinois Office of the Comptroller (IOC) within 10 days. A report of frozen accounts will be run out of FRIS by Funding and Disbursements staff to determine Agency liabilities for Nutrition programs. 561 Fund: The vouchers for the 561 fund will be totaled and listed as the Liability estimated to be submitted to the IOC within 10 days. A report of frozen accounts will be run out of FRIS by Funding and Disbursements staff to determine Agency liabilities for Federal 561 Fund Programs. 001 Fund: A report of scheduled payments will be run out of FRIS by Funding and Disbursements staff to determine Agency liabilities for State 001 Fund Programs.

* Note: Individual funds within the grouping must be listed out if the debt attributable to that fund is greater than \$1 million. The amount listed out individually should be included in the total listed as General Funds, Federal Funds or All Other Funds.

¹ If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

Variance Analysis

Narrative

The methodology for column D is to identify all contracts and grants exceeding \$1 million for the current fiscal year and their service dates. The number of months starting 7/1 to the end of the reporting period divided by the actual number of months in the contract. This percentage is applied to balance of the contract less amounts already paid to estimate the liability.

Variance Analysis

Agency Liabilities are invoices in the normal course of processing. All will be processed within 30 days. Increases or decreases are the result of the timing of when invoices are received.

Narrative

Dollar values are actual values of invoices pending payment. No estimates are used. Numbers reported represent invoices moving through the normal approval process and will meet the requirement of being submitted for payment within 30 days.■

* Note: Individual funds within the grouping must be listed out if the debt attributable to that fund is greater than \$1 million. The amount listed out individually should be included in the total listed as General Funds, Federal Funds or All Other Funds.

Narrative

During the lapse period there will be the following estimated additional vouchers against FY26 appropriations: 0001-676-01-4900-0000: \$392,276.00, 0001-676-01-1900-0100: \$199,833.00. All other appropriations will be spent to their spending limits. These are in addition to what has already been submitted in July against FY26 appropriations.

Variance Analysis

Narrative

For all the funds except the 557, the Column D has been estimated by taking the average of the Annual Budget. The fund 557 estimate is based on previous year's expense.
