**SUSANA A. MENDOZA**  
ILLINOIS STATE COMPTROLLER

# DEBT TRANSPARENCY ACT AGENCY SUBMISSIONS

Vol. 9, No. 6

Period Ending May 31, 2026

---

The following are the Debt Transparency Act submissions filed by state agencies for the period ending May 31, 2026. To find a specific agency, bring up the table of contents (in Edge: Alt and T buttons on your keyboard; in Chrome: hover over the page then left-click mouse on the bookmark image  in the upper-right of your screen, or left-click on the menu  in the upper-left of your screen), then select the agency.

Sixty-eight state agencies and universities responded for the reporting period ending May 31, 2026, in time for their data to be included in the publication of the report. Due to the timeliness required of this monthly report, agencies not filing timely are not included.

Five agencies reported zero liabilities:

- Illinois Civil Service Commission
- Illinois Math and Science Academy
- Insurance, Department of
- Secretary of State, Office of
- State Universities Civil Service System

Thirteen agencies have waivers granted by the IOC under 30 ILCS 105/9.08(a).

## Debt Transparency Act Report

Agency Name: Governor's Office  
 Agency Number: 310  
 Reporting Period Ending: May 31, 2026

Estimated Late Payment Interest Penalties cannot be estimated with any accuracy since baseline date is not a populated field on the SAP report (FBL3N) used for Debt Transparency Act Reporting. The SAP report used for Debt Transparency Act Reporting does not identify liabilities as of the end of the reporting date if the liability is subsequently posted for payment before the report is ran since the FBL3N report excludes these documents.

<sup>1</sup> If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

#### **Variance Analysis**

The GRF agency liabilities are up \$17.6M as compared to the end of April. The GRF variance is related to timing of reporting as monthly expenditures remaining constant. The Federal funds agency liabilities are up \$3.7M from the end of April. This is related to timing of reporting as monthly expenditures remaining constant. The Other funds agency liabilities are up \$3.5M from the end of April. This is related to timing of reporting as monthly expenditures remaining constant. The GRF estimated pending liability is down \$133.7M as compared to the end of April. This decrease is related to DHS methodology is spread across 12 months, processing of GRF transfer to the Employment and Training Fund compared to prior month. For Federal funds pending liability are down \$62.1M from end of April. This decrease is related to DHS methodology is spread across 12 months and in May we began expending funds from Summer EBT program which begins each May. The Other funds pending liability is up by \$46.9M compared to the end of April. This increase is related to DHS methodology is spread across 12 months and the DD Fee-for-Service utilizing GRF funds and for the month of April. There has also been a slower roll out to Legislative add-ons compared to the DHS methodology spreading across 12 months.

#### **Narrative**

- 1 Column B represents the FY26 bills DHS has received but not yet submitted to IOC for payment. The majority of these bills will be submitted to IOC within 10 days, the only exceptions are early intervention bills (502 fund). Vouchers are held until cash is available in the fund.
- 2 Column C represents the prompt payment interest on vouchers paid by IOC that DHS has not submitted to the IOC for payment as of 05/31/2026.
- 3 For Column D, DHS is using an estimation. DHS spread the FY26 estimated non-payroll related spending evenly over the fiscal year. DHS is comparing the estimated liability through 05/31/2026 to the actual submitted to IOC through 05/31/2026. Any difference is reduced by the amount of agency liabilities received but not yet submitted to IOC (column B). Through 05/31/2026, DHS has not received bills for an estimated \$1.0B in FY26 liabilities (\$183.0M in GRF). The estimation methodology DHS is using does allow for negative "pending liabilities". DHS does have Federal and State funds that paid out more than the estimated liabilities year to date. When this happens, a negative "pending liability" occurs. DHS has several funds that can be used interchangeably for services depending on cash flow.
- 4 For many DHS programs, DHS is the payor of last resort and providers are required to seek reimbursement from other sources before billing DHS. This causes delays in billings following the delivery of services. In many cases, the services provided in a month can not be billed until the month following the service delivery. This is why DHS has significant lapse period expenditures and in some cases the authority to pay for prior year bills from current year appropriations.
- 5 For many DHS programs, DHS is the payor of last resort and providers are required to seek reimbursement from other sources before billing DHS. This causes delays in billings following the delivery of services. In many cases, the services provided in a month can not be billed until the month following the service delivery. This is why DHS has significant lapse period expenditures and in some cases the authority to pay for prior year bills from current year appropriations.

### Variance Analysis

1. GRF and Related Funds Column B: Agency liabilities increase compared to the previous report due to the timing of processing managed Care capitation payments in the previous month that does not repeat. Other Funds Column B: 355 Fund: The value decreases due to the timing of receipt and processing of federal pass-through payments to local school districts. Column B's values may vary significantly from month to month depending on the timing of fee-for-service Medical Assistance claim receipt and where monthly managed care payments are in the payment process. 2. GRF and Related Funds Column D: Estimated pending liabilities decrease due to a reduction in outstanding managed care adjustment payments. Other Funds Column D: 329 Fund: The estimated pending liabilities decline due to a reduction in the value of outstanding County Care managed care adjustment payments. 355 Fund: The value increases compared to the previous report due to the timing of receipt and processing of federal pass-through payments to local school districts. Please note, given the size of the Medical Assistance Program and HFS Operations, as well as the fact costs do not necessarily come in consistently each month, the estimated pending liabilities may differ between monthly SCO-961 reports. 3. GRF and Related Funds Column E: The value remains relatively consistent compared to the previous report. Other Funds Column E: 329 Fund: The reported estimated value decline is related to the change in estimated pending liabilities reported in Column D's notes above. The values in Column E are calculated and reported as per October 21, 2019 statewide guidance issued by the Comptroller's Office. As stated above with regard to possible monthly Columns B and D variances, the values in Column E may also vary significantly from month to month depending on the timing of fee-for-service Medical Assistance claim receipt and where monthly managed care payments are in the payment process. Column G: 329 Fund: This supplemental appropriation request is funded mainly by growth in the managed care assessment and a higher federal match rate. The supplemental appropriation will allow greater spending from the County Provider Trust fund thereby reducing reliance on GRF. 346 Fund: The supplemental appropriation is necessary due in large part to later than expected federal approval of the revised hospital assessment program. Supplemental appropriation was approved by Illinois Legislature and is pending the Governor's signature.

### Narrative

1. Figures on this sheet represent all HFS operations and are not limited to Medical Assistance. 2. Column A: General Revenue and Related Funds reflect those funds referenced in 30 ILCS 105/25 (k) (2) (A). 3. Column B: HFS is an agency that processes large amounts of payments. While the values in this column may appear large, HFS is generally not holding bills in-house (with limited exceptions including bills payable from non-Comptroller cash-managed funds awaiting delayed GRF budgeted infusions) and the figures essentially represent normal billing activity cycling through the Department. 4. Column C: Data in this column represents prompt payment interest (PPI) generated from payments issued by the Comptroller. 5. Column D Estimated Pending Liabilities or Incurred But Not Received (IBNR) Liabilities: While the values may appear to be large, they generally reflect normal business activity unless otherwise noted in the Variance Analysis. 6. Column E: Reflects estimated amounts in columns B-D expected to be sent to the Comptroller within 10 days of the filing of this report. 7. Columns G-J: Interest amounts reflected in these columns represent PPI that may be due on bills still at HFS. These bills may be considered at HFS for various reasons including, but not necessarily limited to, Court of Claims proceedings and holds placed due to HFS Inspector General investigations. While HFS has reported the full value of any PPI that may have accrued on these items as of April 30, 2026, not all reported PPI may end up being truly payable pending the outcome of the issues related to the payments. 8. Column K: Not applicable to HFS. 9. In addition to figures reported in the above table, approximately \$15,000 in PPI had accrued to GRF and Related Funds as of April 30, 2026 related to unpaid bills at the Comptroller's Office as of that date. Comptroller's staff requested those PPI figures be reported in these notes.

### Variance Analysis

Amounts payable from funds 0001, 0012, and 0278 represent tax refunds approved by the Department that are in-transit to the Comptroller at month end. Refund vouchers are transmitted each week. Amounts listed in the table above for funds 0001 and 0012 were paid in the first week of the following month. Amounts listed for fund 0278 are expected to be paid in June/July as income tax payments are received and deposits are made into the fund.

<sup>1</sup> If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

**Variance Analysis**

Explanations for variances over \$10 million for Column D are due to differences in 3 year average monthly expenditures from estimation method for determining amounts in column D.

**Narrative**

The methodology for estimation of Column D is based on a monthly average of the expenditures for FY23, FY24, and FY25, and lapse expenditures for FY22, 23, and 24.

### Variance Analysis

### Narrative

Fund 0127 insufficiently appropriated based on fiscal year 2026 supplemental appropriation report from the Governor's Office of Management and Budget. 220 ILCS 50/11 (k) requires the ICC to grant to The State-Wide One-Call Notice System (JULIE, Inc.) the cash balance of all funds collected in the Illinois Underground Utility Facilities Damage Prevention Fund (127). The increased appropriation request allows ICC to pay the remaining cash balance. Additional Public Utility Fund Contractual Services supplemental request to pay for SB25 contractual expenses in FY26.

<sup>1</sup> If an agency needs to report Timely Pay interest, please submit SCO-961A Debt Transparency Report - Timely Pay.

The Tollway is not subject to Prompt Payment Interest or Timely Pay Interest Calculations on Vouchers still being held by the agency.

### Variance Analysis

The Agency's liabilities increased by \$ 6 million from the April 2026 reporting period due to an increase in earned-to-date construction pay estimates. The Agency's estimated pending liabilities decreased by \$3 million from the April 2026 reporting period due to lower non-invoiced M&O accruals compared to actual invoiced accruals. The Agency's estimated payments made within 10 business days decreased by \$6 million from the April 2026 reporting period due to lower M&O-related payments.

### Narrative

The methodology for estimation of Column D is based on accruals that have not yet been invoiced and earned to date construction pay estimates that have not yet been invoiced. The methodology for estimation of Column E is based on the Agency Payment Issued Report with dates of June 1, 2026 to June 3, 2026.

### Variance Analysis

**Col B** ( Fund 410, Fund 560, Fund 561, and Fund 802): Variance is due to the timing of submission of expenditure reports by school districts; (All other funds): Variance is due to timing of the receipt of invoices

### Narrative

410 Fund:

Funding and Disbursements staff will run meal count reports for the previous two months to arrive at estimated meal counts remaining. An excel template has been created that will calculate meal costs based on reimbursement rates multiplied by the estimated meal counts remaining. Formulas in the template will provide estimated pending liabilities for National School Lunch, Child and Adult Care Food Program (both Centers and Homes), and Illinois Free Breakfast and Lunch. The Fresh Fruit and Vegetable Program and the NSLP Equipment Assistance Grant liability will be calculated by taking the total Grant Award less disbursements which equals the obligation. We will divide the obligation by the number of months left in the grant period to arrive at the estimated pending liabilities for both the Fresh Fruit and Vegetable Program and the NSLP Equipment Assistance Grant. Funding and Disbursements staff will process vouchers on the first Wednesday of the month. The vouchers for the 410 fund will be totaled and listed as the Liability estimated to be submitted to the Illinois Office of the Comptroller (IOC) within 10 days. A report of frozen accounts will be run out of FRIS by Funding and Disbursements staff to determine Agency liabilities for Nutrition programs. 561 Fund: The vouchers for the 561 fund will be totaled and listed as the Liability estimated to be submitted to the IOC within 10 days. A report of frozen accounts will be run out of FRIS by Funding and Disbursements staff to determine Agency liabilities for Federal 561 Fund Programs. 001 Fund: A report of scheduled payments will be run out of FRIS by Funding and Disbursements staff to determine Agency liabilities for State 001 Fund Programs.

### Variance Analysis

### Narrative

The methodology for column D is to identify all contracts and grants exceeding \$1 million for the current fiscal year and their service dates. The number of months starting 7/1 to the end of the reporting period divided by the actual number of months in the contract. This percentage is applied to balance of the contract less amounts already paid to estimate the liability.

### Variance Analysis

Agency Liabilities are invoices in the normal course of processing. All will be processed within 30 days. Increases or decreases are the result of the timing of when invoices are received.

### Narrative

Dollar values are actual values of invoices pending payment. No estimates are used. Numbers reported represent invoices moving through the normal approval process and will meet the requirement of being submitted for payment within 30 days.

\* Note: Individual funds within the grouping must be listed out if the debt attributable to that fund is greater than \$1 million. The amount listed out individually should be included in the total listed as General Funds, Federal Funds or All Other Funds.

### Variance Analysis

### Narrative

For all the funds except the 557, the Column D has been estimated by taking the average of the Annual Budget. The fund 557 estimate is based on previous year's expense.
